

Aloha,

My name is JD Talley and I wanted to oppose the GMO labeling mandate. With over two trillion servings of biotech foods consumed by the public in more than 16 years, there has never been a documented incident of any harm to the health of consumers. This mandate will only be an economic burden for the local people. The last thing we need in Hawaii is an even higher cost of living. I sincerely request that you reconsider this mandate and make the right decision by killing this bill immediately. If there are any doubts please take the time and research the American Medical Association, the National Academy of Sciences and the World Health Organization and find out that biotechnology is as safe as and, in some cases, safer than conventional breeding. Thank you for your time.

Mahalo,

J.D. Talley
